The SleepStyle™ 200 CPAP Series with innovative design delivers:

- Unique Ambient Tracking™ Plus humidification technology
- Reliable CPAP performance
- Provides clinical, patient-care and commercial results
Performance + Versatility = Results

The SleepStyle™ 200 CPAP Series – the versatile family of standard and integrated CPAPs deliver sleep performance through clinical, patient-care and commercial results.

CLINICAL RESULTS

A common side effect of conventional humidifiers is the accumulation of water (condensate) in the breathing tube, resulting in disruptive gurgling noises, tube vibrations and mask pressure instability. Research has shown as little as 10 ml of condensate causes a 5.6 cm H2O inspiratory pressure drop at the mask.1

Ambient Tracking™ Plus balances humidity to provide the most effective CPAP therapy under changing conditions by auto-adjusting humidity to compensate for:

- Changing temperatures – minimizes condensation
- Humidity loss during leaks (occur up to 30% of sleep time2) – maximizes humidity

![Figure 1: Mask pressure with and without condensate in tubing (adapted from Bacon et al, 2000)](image)

PATIENT-CARE RESULTS

The SleepStyle™ 200 CPAP Series has been designed with integrated simplicity in mind. The “truly integrated” compact design is a common feature of all standard and humidified models within the SleepStyle™ 200 CPAP Series.

This simplicity ensures quick and easy:

- Set-up and use
- Conversion to heated humidification
- Cleaning and maintenance

An intuitive navigation menu is common across all models. Providers and patients can upgrade therapy conveniently using an electronic key. Travel needs are satisfied with a compact and robust CPAP that allows for altitude adjustment and voltage compatibility in most countries of the world.
COMMERCIAL RESULTS

The SleepStyle™ 200 CPAP Series is designed to save time and money for your business.

Time-saving features that minimize set-up times and patient follow-up issues include:

- Versatile therapy allowing conversion from standard CPAP to heated humidification (electronically) at any time during treatment
- Simple one-piece chamber design
- Intuitive navigation menu including one-step operation to adjust humidity
- Patient compliance monitoring generates a one-page report via a quick telephone call, or a more comprehensive report by machine download

Value-added features associated with improving compliance:

- Ambient Tracking™ Plus – patented auto-adjusting humidification technology
- Proportional Ramp – short term pressure relief to allow initiation of sleep

The table below shows the range of performance features available in the SleepStyle™ 200 CPAP Series.

KEY

- Converts to this model using conversion kit
- HC014 Conversion Kit – Heated Humidification
**PERFORMANCE** - CPAP performance has been improved through increased pressure range and reduced noise levels.

**AMBIENT TRACKING™ PLUS** is a unique technology that promotes better humidification and clinical performance by superseding conventional humidifiers.

**VERSATILITY** - Therapy can convert from standard CPAP to heated humidification at any time during treatment.

**EASE OF USE** - Intuitive menu, quiet operation and compact design add up to a quick and easy provider set-up.

The SleepStyle™ 200 CPAP Series will help you provide 24-hour wellness for your patients. Advanced technologies deliver the best in sleep performance for an energized lifestyle. For more information or to view our complete SleepStyle™ CPAP family, visit www.fphcare.com.

### SLEEPSTYLE™ 200 CPAP SERIES PACK INCLUDES:
- CPAP Unit
- Carry Bag
- 2 x Water Chamber
- Breathing Tube
- Air Filter
- Water Funnel

### ACCESSORIES
- HC204 Conversion Kit – Heated Humidification
- HC355* Extended Life Humidification Chamber
- HC380S Standard Humidification Chamber
- 900HC240 Air Filter (2 pack)
- 900HC221 Tubing including connector
- 900HC230 Compliance Maximizer Software
- 900HC232 Compliance Download Serial Cable
- 900HC607 Titration Maximizer Software
- 900HC236 Isolated Serial Adaptor
- 900HC226 Lead Extension Kit
- 900HC629 Spare Shroud

**PRODUCT SPECIFICATIONS**
- **Dimensions:** 10.8” x 6.7” x 5.5” (275mm x 170mm x 140mm)
- **Weight:** 4.4 lbs (2kg)
- **Chamber Capacity:** 400ml
- **Electrical Ratings:**
  - **Supply Frequency:** 50-60Hz
  - **Voltage and Current:** 100-115V ~ (1.2A, 1.3A max)
    - 220-240V ~ (0.8A, 1.8A max)
- **Operating Pressure:** 4-20cm H2O

*Not available in all countries
